Subject: FW: Update from PADEP Call with Mark Hammond

I need to update you on Oil and Gas and PA RACT. There's been a couple important developments.

Subject: Update from PADEP Call with Mark Hammond

Hi all,

Cristina was double booked so I sat in on the PADEP meeting with Mark. Responses to the permitting and monitoring questions below.

Is PADEP interested in participating in this effort? If so, who would the point of contact be? Yes, Mark H. point of contact initially, but might not be BAQ, may be energy office.

A call was held with B. Braun regarding the upcoming EtO proposal and outreach. B. Braun has provided additional information for EPA to consider. **Would PADEP be interested in holding similar calls with ACS and Cosmed?** Absolutely, Not Mark directly but would expect they would be. Reach out to state contact to schedule.
